

**FOUNDATION FOR PROFESSIONAL EXCELLENCE IN THE COMMUNITY COLLEGE:**

**Report on THE TEXAS NETWORK FOR TEACHING EXCELLENCE IN CAREER & TECHNICAL EDUCATION**

**Partners:**

Austin Community College, Dallas County Community College District, Del Mar College, Midland College, Lone Star College System, STARLINK, Virtual College of Texas, Texas Community College Teachers Association, NETnet

**Contributors:**

Career & Technology Association of Texas, Northeast Texas Community College, Texas Higher Education Coordinating Board, Texas Leadership Alliance, Texas Education Agency, NISOD, Texas Collaborative for Teaching Excellence, The Victoria College, Adobe, Lincoln Electric, bcpLearning, Connexions, Workplace Answers, New Media Consortium, UT TeleCampus

**Partner Contracts 2009-2010:**

**Texas Campus Compact**

The Foundation for Professional Excellence in the Community College will:

- Create an area on the Network Website for the Campus Compact content

Services include:

- Adding Campus Compact as a Partner of the Network
- Listing Campus Compact on the Partners page
- Including Campus Compact in the "Search by Partners" option on the search page
- Creating a Partners profile page
- Creating a "landing page" for Campus Compact with the URL (i.e. [www.campuscompact.txpod.org](http://www.campuscompact.txpod.org))
- Creating a directory page, listing all the content assets with links to each module or recorded Webinar
- Updating the directory page as assets are created
- Adding Campus Compact content to the Network database and search engine (if this content is to be available to the public)
- Produce, edit, and host 12 Web conferences in the 2009-10 academic year

Services include:

- Meeting with presenters prior to each event (in person or virtually)
- Training presenters in using the Webinar interface
- Preparing and uploading content provided by presenters to Webinar platform
- Managing the "backstage" of the Webinar during the program
- Managing the chat area for attendees and presenters during the program
- Editing the recording of the Webinar for archiving
- Uploading the recording of the Webinar to the archive
- Hosting the archive for one year (we can discuss the term of the archiving)
- Adding the recorded Webinar to the Website directory of assets
- Produce, edit, and host online staff meetings and training sessions

Services include:

- Meeting with trainers/facilitators to coordinate the format and technical specifications

for their materials

- Receiving electronic content from providers
- Designing presentations based on materials from providers, as needed

### **Capital Area College Tech Prep Consortium**

The Foundation for Professional Excellence in the Community College will:

- Create an area on the Network Website for the Tech Prep content

Services include:

- Creation of a "landing page" for Tech Prep with the URL (i.e. [www.techprep.txpod.org](http://www.techprep.txpod.org))
- Creating a directory page, listing all the content assets with links to each module
- Updating the directory page as assets are created
- Adding tech prep content to the Network database and search engine (if this content is to be available to the public)
- Produce, edit, and host four Web conferences in the fall of 2009

Services include:

- Meeting with presenters prior to each event (in person or virtually)
- Training presenters in using the Webinar interface
- Preparing and uploading content provided by presenters to Webinar platform
- Managing the "backstage" of the Webinar during the program
- Managing the chat area for attendees and presenters during the program
- Editing the recording of the Webinar for archiving
- Uploading the recording of the Webinar to the archive
- Hosting the archive for one year (we can discuss the term of the archiving)
- Adding the recorded Webinar to the Website directory of assets
- Produce, edit, and host modules in the summer of 2010

Services include:

- Meeting with content providers to coordinate the format and technical specifications for their materials
- Receiving electronic content from providers
- Designing presentations based on materials from providers, as needed
- Embedding audio in the presentation
- Uploading content to repository
- Hosting content in the repository for one year (we can discuss the term of the hosting)
- Adding a listing for each module to the Website directory of assets as they come online

### **Year 3/2009-2010 Goals**

In conducting the Texas Network for Teaching Excellence in Career and Technical Education, Texas Community College Teachers Association (TCCTA) dba Foundation for Professional Excellence in the Community College (FPECC) will:

- Maintain current technical and administrative support staff for the project.
- Provide technical support services.
- Provide renewal for Adobe Connect maintenance support.
- Maintain and enhance current web site.
- Migrate materials from Collaborators and other partners and institutions to web site.

- Continue to work with project director to evaluate web site effectiveness, create promotional materials, and participate in statewide meetings of users and partners.
- Provide ongoing addition of content from partners and institutions into the Network's repository.
- Collaborate with Virtual College of Texas Project in hosting a Distance Learning Best Practices webinar.
- Travel to related conferences and conventions
